## Qualitative

**Comments -**

- This course was pointless if you have any background in excel. the 2 pieces I was actually interested in were Tableau and SAP and we did so little in it that it was less than useless. I would have been better off doing a YouTube on those than taking this course.
- Good course
- I learn a lot from this course. Thank you for the amazing journey.
- The textbook readings were very difficult, sometimes it was hard to follow and see the big picture in how it connects to this class. Enjoyed the data analysis project, although I wish the directions were a bit more clear in the beginning.
- She's very kind and respectful. I would take another class with her.
- Wonderful instructor that truly cares about their students and their well-being both academically and personally.
