Faculty Professional Development Report

Faculty: Senanu Okuboyejo **Department: MIS (Management Information System)**
Period: April 2025 - March 2026 **College: Business & Management**

This report highlights all endeavors and activities to support and enhance my professional growth and development at the college and university during the period under review. This report also serves as a roadmap to ensure the satisfactory fulfillment of my position's requirements per Article 22 Section B of the IFO Contract.

1. **Demonstrate the ability to teach and perform effectively in other current assignments.**
   - I established and maintained a teaching portfolio by teaching the following courses in the AY202526 (Summer 25, Fall 25, and Spring 26)

Course	Title	Summer'25	Fall '25	Spring '26
MIS 380-50	Business Intelligence & Analytics	Asynchronous	Online Synchronous	Asynchronous
MIS 380-51	Business Intelligence & Analytics	Asynchronous	-	-
MIS 310 - 02	Principles of Management Information System	-	Asynchronous	-
MIS671	Problem Formulation and Data Presentation	-	Online Synchronous	-
MIS 328-51	Applications Development 1	-	-	Asynchronous
DBA 795-06	Directed Doctoral Research on Applied Projects	Asynchronous	-	-
DBA 795-07	Directed Doctoral Research on Applied Projects	-	-	Asynchronous

During the Academic Year (25-26), I demonstrated sustained excellence in teaching across undergraduate and graduate courses in Management Information Systems, Business Intelligence & Analytics, and Problem Formulation & Data Presentation, and Applications Development. My teaching aligns with institutional and the PD criteria for instructional effectiveness, innovation, student impact, continuous improvement, and inclusive practice, with particular strength in online and applied instruction.

- **Instructional Effectiveness and Course Design**

I taught multiple undergraduate and graduate sections in fully asynchronous and hybrid formats. All courses were intentionally designed and delivered in D2L using clearly structured weekly modules, explicit learning objectives aligned with program outcomes, and transparent grading rubrics. A consistent Monday - Sunday instructional cadence supported student engagement and persistence. Course materials were regularly updated to reflect disciplinary, platform, and industry changes.

- **Regular and Substantial Interaction in Online Courses**

I ensured regular, predictable, and substantive instructor–student interaction across all online courses in alignment with institutional, accreditation, and federal expectations. Interaction included weekly instructor announcements, active discussion facilitation, timely individualized feedback, scheduled virtual office hours and town halls, and proactive outreach to students needing additional support. These practices strengthened engagement, accountability, and instructor presence in online learning environments.

- **Innovative and High-Impact Pedagogy**

My teaching emphasizes experiential and project-based learning. Students completed hands-on labs and applied assignments using Excel, Tableau, SAP Analytics Cloud, and Python, working with real-world datasets such as U.S. Census and industry cases. Semester-long projects required problem formulation, data analysis, solution design, and professional communication through dashboards, reports, and presentations. Guided and ethical use of generative AI tools further supported critical thinking and AI literacy.

- **Student Learning, Support, and Continuous Improvement**

I provided timely, rubric-aligned formative feedback and observed measurable improvement in students' technical skills, analytical reasoning, and professional communication. I supported students facing health, accessibility, or personal challenges while maintaining academic standards, and mentored students pursuing conferences, AIS competitions, internships, and early career opportunities. Assessment results and student feedback were routinely reviewed to refine assignments, instructional materials, and assessment practices.

- **Inclusive Teaching Practice**

My teaching is grounded in empathy, equity, and inclusion. I design flexible and accessible learning experiences that encourage participation, respect diverse perspectives, and connect coursework to students' lived experiences and career goals

- **Continuous Instructional Development and Pedagogical Innovation**

As part of my commitment to continuous improvement in teaching and learning, I actively engaged in professional development opportunities focused on innovative pedagogy, educational technology, and responsible use of AI in higher education. During the Academic Year, I participated in the following instructional development activities (to mention a few):

- Professional Scrum Master I certification - Earned the Professional Scrum Master I (PSM I) certification to strengthen integration of Agile and Scrum methodologies into coursework, enhancing project-based learning and aligning instruction with current industry practices.
- CEI Fall Metro's Teaching and Learning with AI sessions
- SO-NED webinar series, Say Hi to AI: Getting Started with Copilot (Academic Technologies, September 2025)
- Macmillan Learning webinar, Memorable Meaning Making: Humor and Creativity as Effective Teaching Techniques (October 7, 2025)
- Pearson Higher Education, 2025 Global EdTech Summit: AI in Education - Building a World that Never Stops Learning (October 16, 2025)

- Spring SAP Faculty Workshop on SAP Analytics Cloud with Business Builders
- ERPSim Training for CBM Faculty – 03/02 & 03/06

.

Evidence of Teaching Effectiveness: Demonstrated sustained year-over-year improvement across undergraduate and graduate courses, reflected in stronger course design and instructor presence, more intentional instructor-student interaction, higher-quality student work, increasingly positive feedback on clarity, engagement, and real-world relevance, and growing student participation in applied and career-oriented activities *(see attachments for the complete teaching evaluations).*

2. **Scholarly, Creative and Professional Achievement:** Active participation in faculty development, capacity-building initiatives, or other significant scholarly endeavors as appropriate for my discipline and role.
   - Publish at least one peer-reviewed journal article or conference proceeding.
     - **Okuboyejo, S.,** Adekanye, O., & Ayeni, F. (2025). Evaluating User Experience in Learning Applications among University Students in Nigeria Using UEQ. *International Journal of Emerging Technologies in Learning (iJET), 20*(02), pp. 4–14. https://doi.org/10.3991/ijet.v20i02.54757
     - G. Ataguba, **S. Okuboyejo,** O. Oyebode, G. Chan, F. Orji and R. Orji, "Towards Inclusion of the Personality Framework: A Systematic Review of AI-driven Mindful Eating Interventions for Adaptive and Personalized Eating Behaviors," in ACM Transactions on Interactive Intelligent Systems, 2025 *(conditional acceptance)*
     - Foluso Ayeni, Calvin Nobles, Maurice Dawson, **Senanu Okuboyejo**, Rajesh Godasu, & Muhammad Usama Islam (2026), Generative Artificial Intelligence in Student Assessments: Where Should We Draw the Line? *(MWAIS 2026 Conference, Panel Proposal)*

     Submissions under review
     - **Senanu Okuboyejo**, Aindrila Chakraborty, and Muhammad Usama Islam (2026), From Readability to Fidelity: A Design-Constrained LLM for Health Literacy-Aligned Patient Education, AMCIS 2026, Reno, Nevada *(ERF Submission)*
     - Muhammad Usama Islam, **Senanu Okuboyejo** & Foluso Ayeni, Governing Generative Artificial Intelligence in Higher Education: A Cross-Case Thematic Analysis of Institutional Policies *(MWAIS 2026 Conference)*
     - Muhammad Usama Islam, Nasim Mahmud Nayan, Foluso Ayeni, & **Senanu Okuboyejo** Designing an AI-Driven Logistics Planning Artifact for Constraint-Aware Vehicle Routing *(MWAIS 2026 Conference)*

   - Present scholarly work at an academic or professional conference.
     - Presenter & Facilitator - Metro's CEI Teaching and Learning with AI sessions – Integrating AI for Teaching & Productivity: Content Development
   - Co-author scholarly work with students and mentor student-led research.
     - 6 Student Presentations at the Fall 2025 Student Research Conference
   - Serve as a reviewer for academic journals or conference submissions.

- Reviewer, 16th ICT for Africa (ICT4Africa) Conference, Cameroon, July 2025, AI & Society Journal, ACM Transactions on Interactive Intelligent Systems (TiiS), Behavior & Information Technology (Journal), AMCIS 2026

- Participate in curriculum development and scholarly writing workshops.
  - Curriculum review and development – MIS 380, and MIS 310

- Collaboration in the scholarly growth of peers, other scholars and students
  - Facilitator - CEI Fall Metro's CEI Teaching and Learning with AI sessions – Integrating AI for Teaching & Productivity: Content Development
  - Member – CBM Professional Development Committee on Teaching with GenAI

3. Evidence of continuing preparation and study

- Maintain involvement in professional organizations.
  - Academic Member, Association for Information Systems; Association of Computing Machinery; Minne Analytics, Minnesota
- PDG Award of $1500 to attend AMCIS 2026
- Participate in a teaching, assessment, or student development seminar.
  - Macmillian Learning Webinar Series – Memorable Meaning Making: Humor and Creativity as Effective Teaching Techniques (Jim Morris, Roger Freedman, and Steve Ross, 10/07/25)
  - Pearson Higher Education – 2025 Global EdTech Summit, "AI in Education: Building a World that Never Stops Learning" – 10/16/2025
  - AI in Assessment: Enhancing Integrity, Equity, and Innovation in Digital Learning (Heather Medley & Paul Morales) – Online Learning Consortium (OLC) Webinar Series – Online Learning Consortium (OLC) Webinar Series
  - Microsoft 365 Copilot Agents Masterclass: Lead the Agentic AI Revolution (MS-4014) by NetCom Learning
- Participate in local or regional conferences or professional organization activities.
  - Panelist – DBA Research Day (04/05/2024)
  - PC member, 16th ICT for Africa (ICT4Africa) Conference, Cameroon, July 2025. www.ictforafrica.org

- Active participation in faculty development activities, life-long learning or other significant scholarly endeavors for continuous capacity building and development.
  - Certified Professional Scrum Master I (PSM I): Completed the Professional Scrum Master I (PSM I) certification to maintain disciplinary currency in Agile methodologies and inform instructional design and curriculum relevance.
  - Certified Scrum Product Owner
  - Campus Lead: NASH-Google Micro-credentials Program
  - Google Professional Certificates
    - Build Wireframes and Low-Fidelity Prototypes
    - Google AI
  - Microsoft Certificate of Completion – Build a foundation to build AI Agents and extend Microsoft 365 Copilot
  - Kaggle Certificate of Completion – 5-day Gen AI Intensive Training

- Participant - SAP University Alliances Virtual Trainings for university faculty to earn trainer skills
    - Teaching with SAP Analytics Cloud
    - SAP Build Code
    - Spring SAP Faculty Workshop: SAP Analytics Cloud with Business Builders (January 2026)
    - ERPSim Training for CBM Faculty – 03/02 & 03/06

- SO-NED Teaching with AI: Show and Tell Series, (September, October 2025) - Academic Technologies
- Pearson Higher Education – 2025 Global EdTech Summit, "AI in Education: Building a World that Never Stops Learning" – 10/16/2025
- Practical Strategies for Driving AI Policy Adoption in Higher Ed

- Attend at least one research-focused academic conference or professional workshop.
    - AIS SIG DITE Research Seminar- "**From Lexicons to Large Language Models: A Holistic Evaluation of Psychometric Text Analysis in Social Science Research**", by Ahmed Abbasi
    - AIS SIG DITE Research Seminar, **When Algorithms Delegate to Humans: Exploring Human-Algorithm Interaction at Uber,** by Mareike Möhlmann
    - 2025 International Conference on AI for Higher Education (AI4HE), University of Southern Queensland, November 26–27, 2025
    - AIS Women's Network College webinar, "**Preparing Your Research for Journal Submission: How to Avoid Rejection**", by **Prof Kieran Conboy**, Editor in Chief for the European Journal of Information Systems
- Pursue training aligned with DEI, technology integration, and research methods.
    - AI in Assessment: Enhancing Integrity, Equity, and Innovation in Digital Learning (Heather Medley & Paul Morales) – Online Learning Consortium (OLC) Webinar Series
    - CEI Fall Metro's CEI Teaching and Learning with AI sessions (AY2526) – Integrating AI for Teaching & Productivity
    - Microsoft 365 Copilot Agents Masterclass: Lead the Agentic AI Revolution (MS-4014) by NetCom Learning

4. Contribution to student growth and development.

- Launched the AIS Student Chapter at the CBM, Metro State University.
    - Leading and mentoring student teams in preparation for the AIS Student Leadership and Service Conference (SLSC). Mentored two student teams for submission to the AIS Student Leadership and Service Conference (SLSC), **with one team advancing to finalist status, demonstrating growth in analytical rigor, research development, and professional presentation skills.**
    - Attended the AIS Student Chapter Online Leadership Conference, 11/05/2025
    - I will be attending the AIS Student Chapter Leadership conference in Virginia between 26-27 May, 2026.
- Continue academic advising, mentoring, and supervising DBA students.

- Faculty Advisor for Boern – DBA. Boern submitted his proposal to the MWAIS 2026 Doctoral Consortium for feedback.

- Collaboration in the scholarly growth of peers, other scholars and students
  - 6 Student Presentations at the Fall 2025 Student Research Conference

- Supported students with recommendation letters and career development guidance.

- Campus Lead: NASH-Google Micro-credentials Program taught by industry professionals, it equips learners with industry-relevant, practical skills in high-demand areas such as data analytics, digital marketing, project management, cybersecurity, and UX design. This program enhances students' employability, boosts confidence through hands-on experience, and fosters continuous professional growth by aligning academic knowledge with real-world industry requirements.
- Embed student engagement activities such as guest lectures and research presentations.
  - Panelist – DBA Research Day (04/05/2025)
  - I will also be a Panel Moderator during the upcoming DBA day – 04/25/2026

- I am working with colleagues to review the MIS310 content and materials.
- I incorporated seminars/conference presentations into my courses to equip students with career-readiness competencies such as public speaking and oral communication. Every semester, students in my classes participate in the Student Scholars Conference at Metro State. **The Fall25 conference had 6 poster presentations from my class, with one winning the Social Justice Award. Students from my class have also gone ahead to present their projects in other avenues such as SAM 2026.**

5. **Service: Provide service to the department/college/university or support a significant initiative**
   - Serve on departmental, college, or university-level committees.
     - Faculty Advisor, AIS Student Chapter – Metro State
       - Provided leadership and mentorship to student teams representing the college at the AIS Student Leadership and Service Conference (SLSC), strengthening institutional visibility, fostering student leadership, and supporting competitive engagement at the regional level.
     - CBM GAI Working Group
     - MIS Program Assessment Report Committee – with Simon Jin, and Aindrilla Chakraborty
     - CBM Strategic Goal Taskforce – Engagement:
       - As a member of the College Engagement Committee, I initiated a new-faculty welcome and onboarding effort by developing resource directories and providing early support to help new hires navigate their roles, institutional systems, and the local community, contributing to a more connected and supportive college environment.
       - In collaboration with colleagues, I co-developed and submitted a 4030 grant to support student engagement initiatives, including informal coffee/tea gatherings and the end-of-semester CBM Day, aimed at fostering community, connection, and student belonging within the college.

- CBM Graduate, DBA and MBA Steering Committee
- CBM/IFO Outstanding Student Award (OSA) Committee
- Member, Graduate Programs Committee (GPC)
- CBM Rep, FoCMP – the committee hosted several events throughout the AY
- Member, FoCC
- Student Scholars Committee (University)
- CBM Rep (At-Large), HSRB
- Campus/Faculty Lead – NASH-Google Micro-credentials CoP
- Member, Teaching with AI: Community of Practice (Minnstate NED Initiative)

- Participate in and support Diversity, Equity, and Inclusion (DEI) Activities.
  - Member, Black Equity – ERG for people of African descent
- Contribute to student engagement and retention efforts.

Description of Course and Students

AIS Welcomes Two New Student Chapters

The Association for Information Systems is pleased to welcome two new Student Chapters to the AIS community: Metro State University (Minnesota, USA) and the University of New South Wales (Sydney, Australia).

METRO STATE UNIVERSITY UNSW SYDNEY

Their addition highlights the continued growth of the AIS Student Chapter program and the strong interest among undergraduate students in connecting with the global information systems community.

Foluso Ayeni and Senanu Okuboyejo from Metro State collectively state, "As we celebrate the approval of our AIS Student Chapter, we're inspired by Bill Gates' words: "Information technology and business are becoming inextricably interwoven." This milestone marks our commitment to preparing future leaders at the intersection of technology, innovation, and business."

Foluso Ayeni

Senanu Okuboyejo

AIS Student Chapters connect students to the broader IS community through local programming, professional development, research exposure, and meaningful networking. Chapters also help students build leadership skills while exploring academic and industry career paths. In-person and virtual competitions open to students from member chapters further strengthen real-world, applied skills.

"With establishment of an AIS Student Chapter here at UNSW, we are creating a vital connection to the larger AIS community. For our PhD students, this chapter will serve as a strategic bridge to the global AIS student community, offering a unique platform to cultivate professional identities and build lasting peer networks," says Prof Manju Ahuja, Deputy Head of School (Research).

We are excited to see what the students and faculty leaders at Metro State University and the University of New South Wales will bring to the program. Their participation adds to a diverse, international network of student scholars and future IS leaders.

For students and faculty interested in learning more about starting or participating in an AIS Student Chapter, additional information is available here.

ello Professor,
just wanted to let you know that you're an amazing
rofessor, by far the best professor. I'm thankful for all your help and for pushing your students on to the path of being successful. I'm so grateful to
ave taken your class, professors like you are what motivate me to continue with my degree. I've gained so much knowledge and all thanks to you. I
ope you have an amazing summer though it's already extremely hot.

Hi Professor,

I hope you have a wonderful spring break. I am a student in your class, and I truly enjoyed learning more detailed material this semester. I learned many things I did not know before, and I really appreciate the opportunity you give us, especially the flexibility with late work. Thank you for taking the time to support your students. I hope to see you face-to-face in class next time. Thanks again, and I hope to see you around.

Senanu Okuboyejo

has successfully completed the online Professional Certificate

Google AI

Those who earn the Google AI Professional Certificate are fluent in AI, and have completed 7 courses demonstrating their ability to apply AI to the skills where AI is transforming work: Brainstorming, Research, Communication, Content Creation, Data Analysis, and coding. They have built a portfolio of 20+ artifacts using AI, and vibe coded a custom AI solution. They prompt effectively, evaluate outputs, and leverage AI tools responsibly to solve real workplace challenges.

Amanda Brophy
Global Director of Google Career Certificates

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
